## Features you need to succeed

Simple to learn and use — Dinerware restaurant POS software helps streamline your business and enables you and your staff to focus on what is most important: your customers.

### Quick and Intuitive Menu Building

Build and manage menus and access management functions from any terminal.

### Fast Pay™

Sell an item in two touches! Fast Pay gives your staff the ability to pay immediately.

### Live System™ Technology

Access management functions from any terminal. Changes occur real-time without system restarts. Several people can perform tasks at the same time.

### List View™

Sort and pay multiple tickets to cash. Print delivery information and receipts. Assign tips to multiple checks.

### Instant Access to Your Reports

Access real-time data from any workstation. Dinerware generates reports about job performance, payroll, voids, daily sales and more. Export data to other applications such as Excel.

### Create Multiple Revenue Centers

Organize sales by business area (e.g. bar, dining room, delivery). Define revenue centers by job, assigned section or both!

By creating revenue centers, you'll be able to generate more specific sales reports.

### Unparalleled Security

Track transactions and assign security settings from any terminal at any time. Managers can grant or revoke permissions at any time from any terminal.

### Delivery / Customer Database

Look up any customer with one touch and view a custom menu of favorite items!

### Customer Smart Search™

Instant customer look up. Order their favorite item with a single touch.

### Credit Card and Gift Card

Integrates with several credit and gift card service providers. Some fees may apply.

### Standard Database

Modify the included database to suit your business needs. Store data from other programs in the same database.

### Coursing

Enter appetizers, main courses, and desserts at the same time. Kitchen orders are organized by course, complete with seat positions.

### Powerful Discount Rules

Happy hour made easy! Create comps, coupons and automatic happy hour discounts. Select which items may be discounted, when the discount is available, how the price is to be adjusted and whether the discount may be applied to the entire guest check.
